THE NATION'S FINANCES

Abstracts from the Report of Secre-
tary McCulloch

Foreign Trade Treated Exhaustively
—Suggestions Offered—The Supply
of Silver—International Money
Conference Suggested.

WASHINGTON, Dec. 4.—The following ex-
tracts are made from the report of Secretary
of the Treasury McCulloch:

The expenditures show a decrease, as com-
pared with the previous year, of \$35,534,
or 4% as follows: In the War Department
\$10,451,371, in the Navy \$10,350,350,
Indiana, \$881,501, and in interest on public
debt, \$4,581,152, 70. There was an in-
crease of \$31,575, 70, as follows: In the
Navy Department, \$2,000,164, 27, and in civil
and miscellaneous, \$2,433,411, 49, a net
increase in the expenditures of \$21,271.

The estimates given by the several Ex-
ecutive Departments for the fiscal year 1885 ex-
clude the estimates received from those de-
partments for the fiscal year 1884 by more
than \$40,000,000.

Without intending to criticize the action
of other departments, it may be said that it will be
early in the year 1886 before the amount of the
expenditure for 1885 will not exceed the actual expen-
ditures for 1885, as shown above. This would
leave a surplus for 1885, the same as for 1885,
of more than \$30,000,000.

The amount of imports from customs
for 1885 is in the following table placed at \$185,
000,000, or the same as for the preceding
year, according to long usage in estimating in
the Secretary's annual report. That esti-
mate is probably too low, as there is no
reduction from the actual imports for 1884.

It should be considered that the value of
imports of dutiable merchandise for the fiscal
year of 1884 and 1885 has been much reduced
by the long delay of payment which
is now fairly to be expected.

This reduction in 1884 as compared with
1883, was, it appears in the tables under the head
of "Customs," nearly \$8,000,000, the average
duration of which would amount to more than
\$16,000,000.

It is necessary to assume, therefore,
that the value of imports for 1885 would
be about \$185,000,000.

The all-important question that presents it-
self upon the public attention, is, what shall
be done with respect to the importation of
manufactured goods, and how shall plotters
here or there be prevented?

Whether or not protection has been extended
to labor and to far, and to what extent it
now is, is a question which can only be settled
by full investigation. Government aid is now
needed to induce investment in shipping.

That ship owners have a desire to do
this is evident, but the question is, what
should be granted.

Protective duty was undoubtedly needed
to induce investment in cotton, iron and
wooden mills, and what not in the various
branches of manufacture, which were
then fairly to be expected.

There are questions, however, which
present a difficulty in this connection.

The most imminent of these dangers, and the
only one which can be clearly foreseen, is
the present or any probable future demand for
home consumption. The existing iron, cot-
ton and wooden mills, if employed to their
full capacity, cannot manufacture more
than a short time the home demand.

The question how shall our foreign trade be
increased is the question. I see no bet-
ter way than to increase the amount of
our imports, composed of men not wedded to
the doctrines of free trade or protection—
inquiry thoroughly, comprehensively and
partially.

The leading nations of the world are
not engaged in manufacturing, and all but
Great Britain are fencing themselves in by
protective duties. Among them the United
States is the only one which has not
done so.

When come when a new departure is de-
manded? Cobden, one of the ablest and most
farsighted political statesmen predicted that
England would become a great manufacturing
country, but would not be a competitor with Great
Britain in the South.

That we are to be a competitor with Great
Britain in foreign markets, especially in the
manufacture of articles of high quality, is
as certain as anything in the future can be.

The says which may be used to make this
competition successful, it will be for Congress to
form its duty. To me it seems certain that
it can not properly be done before a Nation
which has been educated to believe in
free trade, and which prides itself in
its comparative value.

The fact exists that a large part of our paper currency based on
the gold standard, about eighty-five cents,
is being received for duties, prevent gold from coming into the Treasury.

Now, if the exchange place of gold and, a gain or an adverse current of
exchange might compel the use of ordinary
paper money, then the reduction of the Unit-

ed States notes, or the use of silver or silver certificates
as the payment of its gold obligations.

As \$30,000,000 of gold is held in the
Treasury, it was doubtless the intention of
the Treasury specie payments were
resumed, that at least this sum should be held
ready for the redemption of United
States notes and for paying for foreign
debts.

It is understood that he went further
than this, and very properly entertained
the idea of holding a sum of gold in
the Treasury, but it is of so serious a
character that ought not to be made upon

any account.

There is no surplus gold in the Treasury,
and the reserve has been trencuhed up;
but is no place for any kind except
silver or copper.

Gold the coin and bullion available
at the mint that at the mint and assay
offices, aggregating nearly \$6,000,000 in gold
and silver.

In Great Britain spirits have been sold
in numerous places, and the price per
pint for the year 1884, the spirits having been
mixed with water naphtha or "methylated."

It is a spirit which is much more
expensive to make as beverage, while
remained uninjured for the general purposes
of manufacturing. It is suggested, therefore,
that provisions be made for the use of tones

to methylated spirits, free of tax, as a meas-
ure to tend to encourage manufacturers
both to produce and export.

The humiliating fact stares us in the face
that while the United States not many years
ago had a monopoly of the ocean tonnage
second only to Great Britain in ocean tonnage,
it has almost ceased to be recognized as
a maritime power. While the course of
building ships in the United States will
not be discontinued, it is evident that
they will be built at sea in the United
States, as is now cheaper in Scotland. Manual labor
is true, is much cheaper in Scotland. Manual labor
is true, is much cheaper in Scotland. The invention and use of
the iron ship building is due to a revolution
in the art of machinery, and the invention
and use of machinery is due to the invention
and use of machinery.

As far as materials for building ships and
in the use of those materials are re-
garded, there is nothing which can be done
but to contract with the foreign
shipyards.

Opposed difficulties are magnified until they are encountered. When
a foreign ship is built, it may be
disposed of at \$25 per ton, and in
four years they could be made in this
country at less than \$30 per ton with a profit
to the maker. This is, in my opinion, the
true value of shipping in the United States,
and will ever share a considerable extent in the
foreign carrying trade with the Government
and the foreign powers.

Protective duty was undoubtedly needed
to induce investment in cotton, iron and
wooden mills, and what not in the various
branches of manufacture, which were
then fairly to be expected.

There is no increase of the face value of the bonds
issued by the Government for the
construction of the Panama Canal, the
acceptance of the 3.65 per cent. bonds of
1884 of the District of Columbia, the payment
of the interest on the bonds of the District of Columbia
and a repeat of the tax on cotton in the same
amount.

It will be noted that the circulation de-
creased to \$19,452 during 1884;

the bonds denominated were increased, which
decreased to \$10,153,350 in 1883, were still further
reduced to \$25,442,000 during 1884—a reduction
of \$35,000,000.

The three-per-cent. bonds of the United
States have now been reduced to less than
the amount which they will be required to
disburse through the operations of the Funding
Fund by nearly \$30,000,000 each year.

Indebtedness of about \$45,000,000 of the
circulation of the three-per-cent. bonds, which
are now redeemable and being rapidly reduced, remedial action can
be taken to keep the circulation in the same
amount.

It will be noted that the circulation de-
creased to \$19,452 during 1884;

the bonds denominated were increased, which
decreased to \$10,153,350 in 1883, were still further
reduced to \$25,442,000 during 1884—a reduction
of \$35,000,000.

THE DAILY BULLETIN.

THURSDAY EVENING, DEC. 4, 1884.

THE World's Exposition at New Orleans is almost ready for opening.

For Mayor of the city of Louisville, Reed was elected by a majority of \$4,400.

FRANK Hurd has decided to contest the election of Romnes, in the Toledo, Ohio district.

POLYGAMY, it is said, will be prominently considered by Congress at the present session.

LOUISVILLE has on hand more than a million bushels of coal, and fears no famine this winter.

The Crimson Mercury says: A colored woman at Danville named her baby, born since the election, Grover Cleveland.

THE whisky question brought out the largest poll of voters ever cast in the city of Louisville. Local option was defeated.

A WASHINGTON dispatch says Speaker Carlisle does not believe there will be any tariff legislation at the present session of Congress.

THE Democrats in the Ohio Legislature will probably submit a graded license constitutional amendment to the people of the State. It is thought that Governor Hadley will recommend a license graded from \$100 to \$300.

A COMMITTEE of tobacco growers have gone to Washington to urge Congress to remove the tax on tobacco. The manufacturers, as a body, are opposed to the removal of the tax and will use their influence to prevent the repeal of the law.

THE Plenary Council, in session in Baltimore, has sent a committee to the desert lands of Colorado and New Mexico to arrange for planting Catholic colonies. With the magnificent system of irrigation now being carried on in that land of the sage brush and jack rabbit it will bloom like the rose.

A RESOLUTION has been adopted by the House of Representatives impeaching United States Marshal Lot Wright, and ordering an investigation into the election outrage in Ohio last October. The resolution was offered by Hon. John F. Follett. The prospects are that the bulldog pistol and club business will be carefully poked into and punishment meted out where it should be applied.

THE official vote of the United States for Presidential electors has been canvassed and the count shows that Cleveland has a plurality of 70,930. The Republican plurality in 1880 was 3,033. The increase in the vote since 1800 is 775,571, of which the Democrats received 459,639, and the Republicans 335,676. The Greenback party has lost 189,857 votes and the Prohibitionists have gained 120,513. The total vote cast was 9,992,825.

RENTS are very high in Washington, probably higher than in any other city in the country. The advertised rents of furnished houses to let show, too, a wide range of figures. The lowest are quoted at \$75 per month and the highest reaches \$3,733, or at an annual rate of \$900 for the lowest, and \$43,796 for the highest. The last named sum, one would think, would be big enough to build a handsome house as even a Washington politician would want. And yet that sum it seems is only enough to rent a furnished house for a year at the maximum capital.

Let the farmer Think.

Whenever a farmer gets a labor-saving implement for himself, let him think if something to save his wife from kitchen labor cannot also be secured. If so, he might postpone the day of his widowhood.

The Record of Maud S.

The following is the record of the trots of Maud S. against time this season: 1st race, June 18.—Quarter, 35 seconds; half-mile, 1:09; three-quarters, 1:36; mile, 2:09.

Cleveland, O., August 2—Quarter, 32 seconds; half-mile, 1:04; three-quarters, 1:36; mile, 2:09.

Hartford, Conn., October 14.—Quarter, 33 seconds; half-mile, 1:03; three-quarters, 1:40; mile, 2:12.

Lexington, Ky., November 8—Quarter, 33 seconds; half-mile, 1:03; three-quarters, 1:36; mile, 2:10.

Lexington, Ky., November 11—Quarter, 32 seconds; half-mile, 1:04; three-quarters, 1:37; mile, 2:09.

Fashion Notes.

Faith tinted brocaded velvets are in fashion for making costly wraps.

Tucks show wonderfully well in the stylish cloths used for winter costumes.

Dragon flies in gold and color are the figures on some of the new brocade velvets.

Two hooks and loops are needed to fasten the very high velvet collars now fashionable.

Valenciennes lace is very popular for trimming light velvet dresses worn by young ladies.

Pompadour lace with raised figures is now made wide enough to form the long overbrace above a satin skirt.

Sparrows are among the birds which decorate winter hats, and the friend of the robin should be mildly happy.

CRIMES OF CRIMSON HUE

1

A Woman Fiendishly Burned to Death by a Sister.

Life Cheap at Dodge City, Kansas—A Double Murder and Lynching in Texas—Fatal Blow in a Church—Record of Other Crimes.

money. He did not start for home until about 12 o'clock, and when he reached the house he was seen sitting in the next room, his lifeless body was found on the road three miles from town, his team standing about forty rods distant from the corpse. Coroner Witt made an examination and found a bullet hole in the heart. When Tonduksy was found his coat was wet, were uninjured and his money was gone. Two young hoodlums living near Minto, who had been seen watching Tonduksy all evening and were seen with him when he left Minto, have been arrested on suspicion.

THE PUGILIST KILLING.

NEW ORLEANS, Dec. 4.—Saturday morning last Nettie Howard, an English sporting woman, was terribly burned in a tenth street dive, where she was living with her sister Lizzie and the latter's partner, Agnes. The burning was an accident, caused by the explosion of a kerosene lamp. The policeman who responded to the alarm at the time noted that there was one lamp in the house, but it was burning as usual, and there was no sign of having been tampered with. Yesterday afternoon Nettie died in horrible agony. Just before she passed away she told in faint whispers to the newspaper men and others who were present a terrible secret. She said: "I am pregnant." Then, said the police, Thompson bargained a store in this city and privately informed the police of it. Friday night Thompson, in some manner, learned of what she had done, and threatened to kill her unless she would give up the child. Nettie paid no attention to him. Shortly after midnight Thompson and her own sister, Lizzie, snatched Nettie and threw her on the floor, where Thompson held her while Lizzie saturated her clothing with kerosene oil and lit a match and set her on fire. The girl writhed and screamed in her agony, but the inhuman wretches smothered her until she stopped talking. She was so badly scalded that she was not able to speak, when they gave the alarm and told the story of the lamp explosion. Thompson and Lizzie were arrested yesterday afternoon and jailed on a charge of murder. It is the most horrid case of its kind ever known in this section, and but for the few moments of consciousness which came to Nettie just before her death, the crime would have gone undetected.

DOUBLE MURDER AND A LYNNING.

Kosciusko, Miss., Dec. 4.—From Mr. T. J. Tate, Sheriff of Ford County, Kansas, the scene of the killing of the two Kentuckians last Wednesday and of the subsequent hanging of one of the murderers, Joe Mitchell, was described for the first time, yes yesterday. The full circumstance attending the fair was as follows:

"The trouble originated last Wednesday morning," said Mr. Tate, "when nine cowboys, among them Joe and Sam Mitchell, who had been engaged in the killing of the two Kentuckians, met at a saloon in the town of Ashton. Three of the men rode half the finished house, being built by the Kentuckians, and so incensed the others that, to revenge themselves for the dignity of their countrymen, they started to shoot. One of the cowboys, however, refused to shoot, drew his revolver and shot at Mr. H. Hinman, the brewer. His Foster had been left in the house, and Mrs. Hinman, who was in the kitchen, ran to him and raised him to safety. The young girl was placed in the Woodland Orphans' Home; thence she was adopted by some Missouri parties, but subsequently returned to the Woodland Home, where she was adopted by Mr. and Mrs. Potter of Bayard, Pike County, Illinois, and by them raised to womanhood. Until now she supposed herself to be their own daughter. Haynes having accumulated some money, Mrs. Hinman, being desirous of finding a home, some months ago began to search and to-day Alice Potter arrived here with her foster parents. From her records of the Woodland Home she has been fully identified as the daughter of George Mitchell, and the news of her safe arrival was very affecting. Mr. and Mrs. Potter are well-to-do farmers of Pike County and seem to be greatly worried, fearing that Alice will be taken from them. Of this condition of affairs, her father and mother have no knowledge whatever, to whom she is entirely attached. It is seldom that two children left to the cold charities of the world fare so well, and Alice has done well."

President Diaz's Cabinet.

CITY OF MEXICO, via Galveston, Dec. 4.—President Diaz has appointed the following cabinet of Foreign Ministers: Senator Ignacio M. Gómez, Minister to England; Minister of War, General Pedro Henríquez; Minister of Justice, Senator Joaquín Baranda; Minister of the Treasury, Senator Manuel Dublan; and Minister of the Interior, Senator Manuel Rubio. The Minister of Public Works has not yet been appointed.

The trouble originated last Wednesday morning," said Mr. Tate, "when nine cowboys, among them Joe and Sam Mitchell, who had been engaged in the killing of the two Kentuckians, met at a saloon in the town of Ashton. Three of the men rode half the finished house, being built by the Kentuckians, and so incensed the others that, to revenge themselves for the dignity of their countrymen, they started to shoot. One of the cowboys, however, refused to shoot, drew his revolver and shot at Mr. H. Hinman, the brewer. His Foster had been left in the house, and Mrs. Hinman, who was in the kitchen, ran to him and raised him to safety. The young girl was placed in the Woodland Orphans' Home; thence she was adopted by some Missouri parties, but subsequently returned to the Woodland Home, where she was adopted by Mr. and Mrs. Potter of Bayard, Pike County, Illinois, and by them raised to womanhood. Until now she supposed herself to be their own daughter. Haynes having accumulated some money, Mrs. Hinman, being desirous of finding a home, some months ago began to search and to-day Alice Potter arrived here with her foster parents. From her records of the Woodland Home she has been fully identified as the daughter of George Mitchell, and the news of her safe arrival was very affecting. Mr. and Mrs. Potter are well-to-do farmers of Pike County and seem to be greatly worried, fearing that Alice will be taken from them. Of this condition of affairs, her father and mother have no knowledge whatever, to whom she is entirely attached. It is seldom that two children left to the cold charities of the world fare so well, and Alice has done well."

A Remarkable Case.

Mrs. Henry Ellis, goos Scott street, Milwaukee, Wisconsin, writes: "Dr. B. Hartman & Co., Columbus, O., I am induced by a sense of duty to the suffering to make a brief statement of your remarkable case. Dr. Hartman, a surgeon from the various annoying and distressing diseases of delicate persons, which caused me to be confined to my bed for a long time, being too weak to even bear my weight upon my feet. I had been treated by the most reputable physicians in our city, each and all saying they could do nothing for me. I had given up all hopes of ever being well. In this condition I began to take your MANALIN and PERUNA, and I am now perfectly healthy again. In fact, I am stronger than ever. I was perfectly cured, without any appliances or support of any kind."

Mr. G. A. Proch, New Portage, Summit County, Ohio, writes: "My wife and I have been married for five years. In the first place the doctor called it leprosy, and treated it as leprosy, and treated it as leprosy, and it got worse, and turned to ulceration of the womb, and was treated for two years, but she grew worse and the doctor gave up hope of ever curing her. She was paralytic, and I could not get her up. We tried the use of PERUNA until she was well again."

Mr. Isaac Nodemon, Schellsburg, Bedford County, Pa., writes: "I am induced, by a sense of duty to the suffering, to make a statement of your remarkable case. I suffered from a severe attack of catarrh, and I took your MANALIN and PERUNA, and I am perfectly cured again. I am now stronger than ever. I am better health than I have been for ten years, and I am really recovering."

ladies, gentlemen's and children's Handkerchiefs and Mufflers in large assortment for babies, and Flannel department will be found filled with fabrics at prices to command the entire world's worthy attention of our patrons and the public. Our Black and Colored

THE DAILY BULLETIN

THURSDAY EVENING, DEC. 4, 1884.

ROSSER & McCARTHY,
Publishers and Proprietors,
To Whom Address All Communications

The following days have come
The sadness of this year,
But he who uses paper's ink
Will have no cause to fear
The chilling winds, borean tides,
The polar blasts that rise
Trifling things are going to be
To those who advertise.

There will be a meeting of the council at the usual hour this evening.

Mr. JOHN BALLINGER's holiday advertisement will appear in this paper to-morrow.

The Transcript claims that a thousand houses have been erected in Lexington this year.

CAPT. GEORGE COLLIER has been assigned to Capt. Henry Green's train for the present.

MR. ROBERT F. MEANS is announced elsewhere as a candidate for councilman in the Fifth Ward.

At a recent meeting of the Assembly Dancing Club, it was decided to have two elegant hops during the holidays.

If you want to do a holiday business that will make up for the dull season, put your advertisements in the DAILY and WEEKLY BULLETIN.

JAMES CULLEN's barber shop on Second street, between Sutton and Wall, caught fire this morning about eight o'clock from a defective fuse. A small part of the roof was burned before the flames were put out. The damage was slight.

The members of the Knights of Labor Lodge have requested the BULLETIN to return their thanks to the ladies who gave cakes and other articles to the recent entertainment, and otherwise aided in making it a success. The proceeds amounted to \$160.

SAYS THE Paris Kentuckian: Professor Blaisdell, standing on the street in Mayville, Wednesday evening, in conversation with three gentlemen, said: "Oblige me with the time, Judge?" Straightway all three pulled out their watches. The "situation" was seen at once.

THE Carlisle Mercury says: The case of Lon Dunn's administration vs. the K. C. R. R., has been reversed by the Superior Court. It will be remembered that young Dunn was killed while working on the railroad. His administrator secured a judgment against the company for \$3,000.

NEAR Mt. Sterling, on the 1st instant, Dave Anderson and Lee Wigginton, who had a misunderstanding about a gun, met on the road armed with shot guns, and proceeded to adjust the difficulty. Both men were mortally wounded. Anderson is dead and Wigginton's death is hourly expected.

MR. LOUIS MILLER, who has been in feeble health for a year or more past, died last night at his home in East Mayville. He was for many years a valuable employee of the Eagle Plow Works, but lately has been engaged in business on his own account. He was a good citizen and had many friends who will regret to hear of his death.

AN outbreak by the prisoners in the jail at Vanceburg is thus noticed by the Courier:

"On Friday night the prisoners, seven in number, undertook a work of demolition that, so far as we can learn, was never completed. The inmates of the jail, however, were not the only ones concerned.

Four of the prisoners occupying one cell piled up a piece of the floor and then other pieces until they removed the scatting upon which the floor rested from their places on the cement and stone which underlies the building and then used the stones to fill the space between the posts and staves, thus propping heavy bars which answered every purpose of crowbars. Securing these they passed them to the three who occupied another adjoining cell, and these three, in like manner, converted into weapons of destruction. Then breaking the doors so that the latter or other officers could not reach them, they began prayng on the grating and breaking the bolts about the windows. This work they continued until every window save one had been broken to pieces."

About noon on the following day the prisoners were prevailed upon to remove the brasses from the doors and allow the officers to enter. They were then allowed to remain in the jail, but were not permitted to leave it except to go to the latrine, and then only by permission of the jailor. They had succeeded in freezing themselves by breaking the locks of the fitters with the lid from the stove. On Monday one of the prisoners, Redman, from Tollesboro, tore his mattress in pieces and lay on the floor, and it was agreed that the other boys would not fight him if he remained. The jailer, who removed the mattress, shortly afterward he tore up another mattress and set fire to it. Heavy hand-wards were then placed upon him which caused him to stand a little more than an hour.

The man seemed to have no desire to escape but simply to destroy as much of the jail as possible. It is probable, however, that the idea of escape was precluded by the heavy iron door at the entrance to the cells, and this intensified their eagerness to make the work of demolition as complete possible.

PERSONALS.

Mr. E. A. Novell is an applicant for the postoffice at Carlisle.

Mrs. A. J. Ritter, of Augusta, died suddenly, a few days ago, of paralysis.

Mr. D. T. Ambrose and wife, of Lexington, are visiting the family of Mr. W. H. Ambrose, of the East End.

Mr. Frank Bland and Miss Amanda Trigg will be married at Shannon Church, on Wednesday evening, the 10th inst., at six o'clock. The bridegroom is one of our promising young farmers and the expectant bride is the niece of Mrs. Amanda Watson, and is one of the brightest and most attractive of our society ladies. Great interest centers in the occasion not only on account of the popularity of the high contracting parties, but from the fact that the venerable Hiram Baker, who has made so many happy marriages will be the officiating clergyman.

A PAIR of horses attached to a wagon heavily loaded with wheat ran away on Second street, yesterday afternoon, but were stopped in front of Geissel's grocery store before any damage was done.

THE Paris Kentuckian says: Mayville Commandery has a fame that extends far and wide for knowing how to entertain. She numbers many fine specimens of noble manhood in her ranks.

School Notes.

DISTRICT NO. 2—DOVER.

There has been a special act of the Legislature giving extended rights to this district, but as we are informed there has been no public school organized as yet, this year.

DISTRICT NO. 3—MINERVA.

The schools are open and buildings present a general appearance of neglect.

The roof of the house is deficient and the ceiling is stained from its frequent leaking.

The room in which the public school is taught is large, but not in good repair, though a small sum would be sufficient to repair it.

Mr. Joseph Byar, Robert Wilson, Campbell King, Marshall King and Dr. Reid are the trustees. They have not visited the school, nor have the patrons.

The census shows that there are one hundred and forty-six pupils in this district.

There are forty-three on roll and thirty-seven were found in attendance.

Mrs. Phillip Orr is teaching. It is her first term at this place. She finds a great deal of hard work in the school, but attended the large number that have attended.

Mrs. Orr is doing very faithful work. We had the pleasure of visiting a private school taught by Prof. O. N. Weaver, in the same "game" that is used for the public school. The teacher was well received by ladies and gentlemen studying mainly the advanced branches and they were moving on nicely. It was to me a very pleasant visit. There is also a private school taught by Mrs. Blair, but I did not have the pleasure of visiting it.

W. H. SWAIN is the teacher.

This school is located on the turnpike at Shannon, or, as in the common vernacular, "Slip-up." The census reports sixty-six pupils. There are thirty-seven on roll and twenty-one were found in attendance.

The house and furniture are sufficient for the number of pupils.

There are one hundred and forty-six

pupils in this district.

Mr. James K. Ladd is the teacher.

The business of Paul Hoeflich & Bro. will be continued as usual at the old stand on Market street. —decl'dw

The ingredients of Wills' World Worm Candy are drugs that any physician would prescribe. It is a safe and reliable remedy for worms and should be used by all who require such a medicine. Ask your druggist for it.

I have just received a new stock of millinery goods, including velvets, brocades, hats, plumes, birds and trimming ensembles. Yo'r supplier is solicited.

THE YOUNG son of Mr. Given, Inspector of ties for the Louisville, Cincinnati & Lexington Railroad Company, at Cincinnati, was killed by having his head crushed under the wheels of a train at the depot, in New Haven, as he was leaving, in company with his father, to cross to Cincinnati.

THE REPORT of the Utah Commission would indicate that the U. S. Law has impeded the good in the suppression of polygamy, if nothing more. The report states that the Government has to deal with a people wonderfully superstitious and the sudden overthrow of polygamy, as a result of the enforcement of the new anti-polygamy laws is not to be expected. They recommend additional legislation in the nature of amendments to existing laws, which they think will greatly strengthen the hands of the law in the future. They also express the opinion that it is unlikely the Federal Government will finally find it necessary to take into its own hands all civil power in Utah.

A FRAUD UNearthed.

TIN SHEETS PASSING THROUGH CUSTOM HOUSE AS TIN PLATES.

PITTSBURG, Dec. 4.—The American Tin Plate Association, of which John Jarrett is the general agent, has discovered a direct evasion of the law in the manner of evading the duty on tin plates and sheet metal.

Last summer the Appraisers Department of the Philadelphia Custom House discovered that large tinned sheets were being entered as tin plates. The chief examiners ruled that the duty on tin plates should be imposed under the rate of section 15 of the tariff index, which provides the rate for plates and sheet iron. This ruling was affirmed by the Treasury Department on July 14. Since that time these large sheets have not been imported through the Philadelphia Custom House but have been coming in steadily through the custom houses of New York and Boston as tin plates. Mr. Jarrett is now preparing a statement with which to present to the Secretary of the Treasury so clearly that the officers of all ports of entry will be instructed to stop the fraud which amounts annually to thousands of dollars and is rapidly growing greater, as more and more come very quick to grasp the idea, and the shipments each week are larger than those of the week preceding.

By CANON from NEW YORK to NEW ORLEANS.

NEW YORK, Dec. 4.—Dr. R. H. Russell, of 406 Canal street, will start some day this month in a canoe for Lake Ontario, via the Hudson River, over which he will go to the Ohio River, thence down the latter to the Mississippi. The trip will take about six weeks. The Doctor will then exhibit his boat at the Exposition. He challenges all comers to compete in the canoeing.
